It is important for us to strive to improve the quality of the show. As a condition of leasing a space, we require items to be made by the crafter/artist as defined:

**“Crafts” are defined as works made by hand or with the use of appropriate tools, showing imagination and the mark of the craftsperson’s individuality.** Items sold must have some type of skill or craft applied to the product and it has to be a **MAJOR** part of the finished item that defines it as unique. Tying a bow around a wholesale item, gluing a clasp or pin to something, adding a patch to a sweatshirt or putting two or three purchased items together etc. is not considered a hand made craft. **Food items are not considered a craft and shall not be sold by a vendor registered to sell crafts.** Any attempt to sell commercial crafts, which is defined as items not made by the individual or food items will be immediately removed by the vendor from the booth and may mean elimination from future shows, based on the sole discretion of the Rotary Club.

Lititz Rotary Club shall be held harmless for any good faith decisions regarding what is determined to be a “craft”.
